

Unifi

- Unifi is a diversified producer of textured nylon and polyester yarns
- Manufacturing & Sales Globally
- Sales Revenue- \$720 million
- 3,000 employees

Our Sustainable Ideals & Commitments

- **One Common Goal**
 - One company can make a difference. More than one, a bigger difference. From employees to end-users, we will work together to achieve one common goal: A reprieve. For the Planet.
- **Responsibility & Commitment**
 - It's not just about a product or process. It's about being committed to doing what's right-including giving back to support communities and organizations that help take care of our planet for future generations.
- **Integrity & Authenticity**
 - Unifi will do the right things, in the right ways. By providing real & transparent sustainable textile solutions.
- **Sustainable Textile Solutions**
 - Repreve is just the start. Unifi will continually develop and commercialize innovative, competitive textile solutions.

Challenges in the Development of Sustainable Products

- Technical Challenges
 - How do we develop a quality, 100% recycled product?
 - What's the right recycling technology?
 - What's the right product make-up/chemistry?
- Industry Challenges
 - No standardization of sustainability or recycled terms
 - Need for environmental substantiation
- Consumer Challenges
 - Consumer education
 - Transparent marketing claims

Unifi's family of 100% recycled yarns

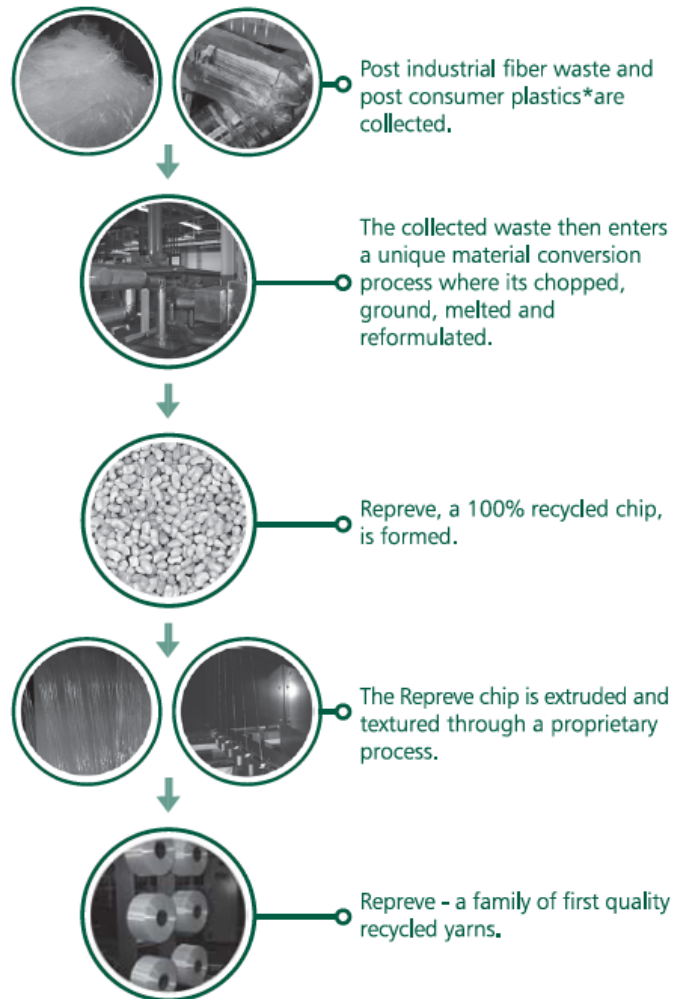

- ~3 years in development to create a 1st quality product made from 100% recycled materials
- Repreve...A Product of Evolution
 - Repreve Polyester - launched in the Summer of 2006
 - Repreve Nylon 6,6- launched August of 2008

The Repreve Difference

- Made from 100% recycled materials
 - Repreve polyester- SCS & Oeko-Tex certified
 - Repreve nylon 6,6- Oeko-Tex certified, SCS certification currently in process
- Consistent Quality
- Typically, Repreve can be used anywhere a virgin nylon or polyester product is used; considered a “drop-in” replacement
- Unifi Brand Certification
- Global Availability
- Wide range of products; including near-micro Repreve polyester and Repreve polyester and nylon dyed yarns
- Repreve aio performance yarns, Repreve + Sorbtek, Repreve + Reflexx

The Repreve Process

The Repreve Process

* Repreve Nylon 6,6 does not contain any post-consumer content

A Repreve. For the Planet.

Repreve conserves natural resources by offsetting the need to produce virgin polyester and nylon; using less energy and natural resources

Polyester Process Comparison

Virgin Polyester

- Crude Oil Well Head
- Crude Oil Refinery
- Naptha
- Xylenes
- Paraxylene
- TA* & MEG**
- Polymerization
- Extrusion
- Texturing

Repreve Polyester

- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Repreve Chip Production
- Extrusion
- Texturing

**For every 1 lb. of Repreve polyester yarn,
50,000 BTU's*** are conserved,
equivalent to 0.4 gallons of gasoline**

* TA – Terephthalic Acid

** MEG is Mono Ethylene Glycol (Can be made from Oil or Natural Gas)

*** British Thermal Units

Nylon Process Comparison

Virgin Nylon 6,6

- Crude Oil Well Head
- Crude Oil Refinery
- Benzene
- Cyclohexane
- HMD* & Adipic Acid
- Nylon Salt
- Polymerization
- Extrusion
- Texturing

Repreve Nylon 6,6

- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Process Eliminated
- Repreve Chip Production
- Extrusion
- Texturing

**For every 1 lb. of Repreve nylon yarn,
77,000 BTU's** are conserved,
equivalent to 0.6 gallons of gasoline**

* Hexamethylene Diamine

** British Thermal Units

A Repreve. For the Planet.

Conserving Energy & Natural Resources

- On average, for every 1 lb. of Repreve manufactured, the equivalent of 0.5 gallons of gasoline is conserved.
- By 2010, the production of Repreve will conserve the equivalent of 10,000,000 gallons of gas

Repreve End Uses

Performance Apparel

Fleece

Tote Bags

Trims & Zipper Tapes

Bottom Weight Woven Applications

Sewing Thread

Outerwear

Contract Furnishings

Home Furnishings

Bedding

Repreve. For the Planet.

Repreve is more than a 100% recycled yarn.
It's a reprieve on our planet's resources.

REPREVE
FOR THE PLANET

Repreve. For the Planet.

SERIES OF HANGTAGS:

A series of five hang tags grabs consumers' attention with the campaign theme: "Repreve. For the Planet." Each hang tag has a different cover picture, depicting the range of environmental causes supported by the program.

SINGLE HANG TAG:
The hang tag clearly communicates the Repreve brand's environmental message. It also invites consumers to interact with the brand online by helping Repreve give back.

WEB PAGE:

Consumers take the hang tag to the web site to learn more about the program. They find they've done something good for the planet by casting a vote for the cause they choose. The web site also includes educational information about Repreve recycled—why it's different, how it's made, and where to find it.

Repreve. For the Planet

Because it's not just about recycling.
It's about giving back.
